

# It's In The Bag!

	Bag 1	Bag 2	Bag 3	Bag 4
Quarter				
Dime				
Nickel				
Penny				

Goldie the Mint Fish and Plinky the Mint Pig were playing together one day when Plinky told Goldie that she had 4 coins (1 quarter, 1 dime, 1 nickel, and 1 penny) each in a separate bag. If Goldie could figure out which coin was in each bag, by following several clues, she could have all four coins!

## Here are the clues Goldie was given:

1. The coin in bag 2 is silver in color.
2. The coin in bag 4 has ridges around the edge.
3. The reverse of the coin in bag 4 has the word "one" written on it.
4. The coin in bag 1 has a building on it's reverse.
5. The nose of the man on the coin in bag 3 faces the left.
6. The coin in bag 2 features the image of the first president of the United States of America.

Use your head to help Goldie determine which coin is in each bag by using the box above to record your findings.
