

Memories from the National Sites

Project Plan Guide

Name _____

My Tasks

The teacher will introduce the concept of writing. You will then research the national sites and highlighted states. You will take a virtual visit to the parks and then write a virtual postcard or create a virtual scrapbook of the trip.

My Worksheets to Complete

___ What Did I See?

Project Option

You will complete a virtual postcard or scrapbook using the “What Did I See?” worksheet and the template the teacher will provide on a computer. Once complete, you will present the postcard or scrapbook to the class.

If you choose the virtual postcard, it will need to include a greeting, a body, and a closing. The postcards must include three to five things that you saw on the site you visited. You’ll get this information from the research you collected on the “What Did I See?” worksheet.

If you choose the scrapbook, it will need to include three to five pages (slides), including an illustration and a sentence or two describing what you saw on the website you visited. You’ll get this information from the research you collected on the “What Did I See?” worksheet.
