Cumberland Island Postcard

Directions: Create a postcard that focuses on two unique features of Cumberland Island National Seashore to share with someone else.

The postcard template consists of a large rectangular frame. The top half of the frame is a large empty space intended for a drawing or illustration. The bottom half of the frame is divided into two sections by a vertical line. The right section of the bottom half contains a small square box, likely intended for a stamp, and three horizontal lines below it, intended for an address.
