

# Oh, No! A World Without Water Project Guide

Name \_\_\_\_\_

## **My Tasks**

After your teacher introduces the concept of water being essential for life, research the selected national states and sites and pick one as the subject of your project. Take a virtual visit to the national site and then illustrate the site with water and without water. Refer to the “Life Without Water” worksheet. Present the illustration to the class.

## **My Worksheets to Complete**

\_\_ Life Without Water

## **Project Option**

Use digital drawing software to create your habitat illustration if your class has it available. Use the software template (if your teacher provides one)
